

WITH THE OIL MEN

Giles A. Penick, private secretary to J. S. Cason, is back from Shreveport.

R. E. Williams, assistant secretary of the Oklahoma Producing & Refining corporation, is back from a combined business and pleasure trip to Galveston.

Harry J. Connally, who was here visiting his parents, Mr. and Mrs. H. J. Connally, 1110 South Cheyenne, returned today to Kansas, where he has full charge of the Nakoma Oil company interests.

W. R. Rogers is back from Maine and while there purchased a piece of pipe which is made from wood and shows a fine grain. He will be found at the new pipe and just what it is expected to do.

L. H. Phillips, of the production department of the Oklahoma Producing & Refining corporation, has returned from a trip to Marietta, Ohio. This is his old home town and he reports a very enjoyable trip.

Gas Tex, who has been writing the history of the mid-continent oil fields, is back from Rochester, Minn., where he went to have an operation on his eye, and will continue his work now with much more comfort. It is a big job he has undertaken.

Pat Maloy, president of the Western Petroleum Refiners association, is scheduled for a speech at the meeting of the Independent Oil Men's Association in Chicago. The list. He will set forth the aims and ambitions of the Western Petroleum Refiners association, and will doubtless be the most interesting speaker on the entire program.

J. N. Robinson, who owns Hotel Tulsa, has announced that he will build a 55-story hotel in Kansas City, which will cost between \$5,000,000 and \$10,000,000. It will be the finest in the west and larger than any hotel outside of New York. More power to him. He did as much as anyone to make Tulsa a good town to live in. He knew how to give the oil men the glad hand.

Pam Kong came in this morning with his usual cheery smile and advises that his new associates are starting their first well in Stephens county, Texas, Caddo district. They are right in line for some good production and we hope they hit it. With Mr. Kong in his new venture

point where there should soon be news of some sort from there.

Some Disappointments

Charles McGriffie is drilling at 2,100 feet in No. 1 Seaman farm in the southeast quarter of 25-23-3w. It will be the deepest well in the section.
